DESIGNER COMPETITION

Do you fancy yourself as a Nanoblock model designer?

We're looking for community created "alternate models" for the Nanoblock UK website and we need your help!

To enter, simply create a different model from any existing Nanoblock set available in the UK and upload it to the Nanoblock UK Facebook Wall (www.facebook.com/NanoblockUK)

The best model designers will have their creation preserved in full colour instructions and made available for download on the website with their name listed as designer!

The first alternate models to be chosen will be:

Japanese Tree Frog

Mont Saint Michel

Terms & Conditions:

Model designs must only use bricks used from a completed model i.e. without using the extra bricks provided in a set, which is available domestically in the UK (see nanoblockuk.com to see UK available products). Not all bricks need to be used in your design. Upon uploading your image, please note which Nanoblock kit was used to create your alternative model. Best model designs will be chosen based on the difference of model to the original kit, any special usage of Nanoblock bricks and the general quality of the design. Our decision is final and if your model is chosen, we reserve the right to alter the design in order to ensure the model conforms to certain design specifications. You may enter as many product designs as you wish and could be selected as a winner more than once. You can find out which kits are being selected next from the website.

For further details please visit www.nanoblockuk.com. This competition is run by Nanoblock UK, a trading name of Asholay Distribution Ltd, 43 Putnoe Lane, Bedford, MK41 9AD, registered in England no 06664068.
